Subject: 2018 Four Door Freightliner Engine

Department: Fire Department

Bids were solicited for a 2018 Four Door Freightliner Engine to replace the current 22 year old truck. This truck will be used in all areas both rural and city responses, for the fire department. The reason for bidding out this truck at this time is to ensure delivery in 2018. Specifications were sent to several vendors with four vendors responding back to the requests for bids. Those bid amounts are listed below:

Deep South Fire Apparatus-(Seminary, MS) -270 days	\$323,002.00
Rosenbauer-(Wyoming, MN) –360 days	\$399,203.00
KME- (Nesquehoning, PA) -300 days	\$373,750.00
E-One- (Ocala, FL) -300 days	\$378,335.00

All the bids submitted met the specifications requested. Furthermore we would like to request a not to exceed price of \$340,000.00 to purchase the 2018 Four Door Freightliner from Deep South Fire Apparatus. Delivery of this truck is projected to be in early to mid-2018.

This Capital Improvement purchase would be from account 100-5-2200-319

**Agenda Item**

**2018 Four Door Freightliner Engine**

**Engine 212**

We would be replacing the following Engine currently used for both City and Rural fire responses.

1995 Four Door Freightliner FL70 Series, with a 1500 GPM pump and 1000 Gallon water tank with a 40 gallon AFFF foam Tank. Current Mileage of the truck is 83862, with a total of 7061 motor hours.

This is what the proposed truck would look like with the exception of the roll-up doors. It would be a 2018 Four Door Freightliner M2 Series, with a 1500 GPM Pump and a 1470 Gallon tank/40 Gallon Class A/B Foam tank as well.
